

Klove is an indispensible radio station, they are committed to keeping good, clean family radio on the airwaves as well as serving as a ministry for our communities. It would be a tragedy to replace Klove with ANY other broadcast radio. There is not a replacement for such a wonderful encouraging station. I believe that Klove is operating in the public interest because I see it everyday. I play Klove at my place of work, and people are always either commenting about how much they listen and enjoy it, or they ask what station it is so that they can tune in. Klove is a great station and we say, KEEP Klove on!
